---

## EXPERIENCE

### Pioneer Valley Planning Commission | Springfield, MA

#### Data Analyst & Transportation Intern

Mar 2025 – Aug 2025

- Led a cross-functional commuter behavior study, increasing participation by 50% and improving data quality used to evaluate trends influencing regional transit demand and strategic transportation planning.
- Analyzed over 2,200 survey responses using Python and interactive Excel dashboards (pivot tables, charts, and what-if analysis); also tested AI tools to enhance visualization and accelerate data exploration.
- Learned analytical tools rapidly and completed the project three weeks ahead of schedule, providing actionable insights and recommendations during weekly meetings with the Transportation Head and PVTA management. Findings informed regional funding priorities and annual transportation reports.

### Student Government Association | Amherst, MA

#### Chair of Finance

Oct 2022 – May 2024

- Performed financial analysis and allocation of a \$12M student activities budget through Campus Pulse, enhancing financial accuracy by 15% while ensuring organizations received effective funding with minimal cuts.
- Executed emergency funding requests under tight timelines by coordinating with the university treasurer and committee members, streamlining approvals to within days and achieving a 100% allocation rate.
- Managed timelines and improved stakeholder collaboration throughout the budgeting process.
- Promoted DEI and anti-racism initiatives while supporting financial planning and strategic resource allocation on key committees, increasing student engagement and expanding equitable access to funding.

### Fidelity Investments – Boundless Mentor Program | Remote

#### Participant

May 2025 – Aug 2025

- Selected from a pool of 100+ students for a competitive mentorship program focused on risk analysis and exposure to Fidelity's risk-management strategies and industry best practices.
- Engaged in virtual mentorship sessions and applied insights to academic and professional development.

### Project Destined | Remote

#### Real Estate Private Equity Intern

Jan 2025 – Mar 2025

- Completed a 7-week real estate private equity training program performing financial due diligence and underwriting three multifamily deals in both team and individual settings, using Pro-Forma and Excel.
- Competed in a private equity-style pitch competition to showcase financial modeling and financial analysis skills.

---

## PROJECTS

### Hitched on a Budget

- Developed and automated a dynamic wedding cost-planning tool using Python and Excel, integrating advanced functions, pivot tables, what-if analysis, and data analysis techniques to accurately forecast and optimize event spending. Automated calculations and created dashboards structured for scenario planning, directly applicable to FP&A, forecasting, and budgeting workflows (formatted for a wedding use case).
